PROFESSIONAL SUMMARY

A dedicated Full Stack Developer with experience in designing, developing, and deploying scalable web and mobile applications. Proven track record of delivering high-quality projects from concept to deployment. Strong expertise in React ecosystem, Node.js, and modern development practices. Additionally experienced in no-code automation platforms like GoHighLevel for business workflow optimization. Passionate about creating solutions that bridge the gap between user needs and business objectives.

PROJECTS & EXPERIENCE

Digistall - Leasehold Management System

2025 - Present

Lead Developer & Co-Founder | Naga City Government Selected Startup

Led development of a comprehensive cross-platform mobile and web system for public market leasehold management. Our team was selected as Startup Founders by the Naga City Government. Secured funding through a pitch competition. Successfully deployed at digi-stall.com with real-time stall tracking, payment processing, and automated notifications.

React Native Node.js Supabase PostgreSQL Expo
